

Correlations of Price Gaps and Observables

	Distance	Border	Tariffs
Price gap, d_{ni}	0.42 [0.39, 0.45]	-0.18 [-0.21, -0.15]	0.34 [0.31, 0.36]

This table pairwise correlation pooling all non-zero observations and the years 2004, 2011, 2017. Distance and tariffs are in logarithms. 90-10 confidence intervals reported in brackets.
